## E\*Value Portfolio Review

Over the last few APPE Rotations of the year, there will be an influx of students asking you to sign off on their Portfolio Review Form.

This form verifies that you have reviewed the student's MyFolio in E\*Value and provided them with constructive feedback they can use to enhance their portfolios.

There are two ways that students will be able to allow you to review their portfolio.

The first is for them to sit down and pull up their portfolio through E\*Value on a computer that you both can look on to review the contained material.

The second way is for them

to download their MyFolio and email it to you and for you to access the portfolio files when time allows.

After you have had the time to review the portfolio of the student and provided any necessary feedback then you may sign-off on the Portfolio Review Form that the student will provide.

Students will also be finishing up their Rotation Presentation and Physical Skills Assessment sign-off sheets. Please provide assistance if they ask for opportunities to complete these requirements while on rotation.
