APPE Notes

May 28 - Memorial Day

Memorial Day is recognized by the University as a school holiday and students will not be reporting to rotations on this day. The first day of rotations will begin the following day, May 29th.

July 4 - Independence Day

Independence Day is recognized by the University as a school holiday and students will not be reporting to rotations on this day. Rotations will resume the following day, July 5th.

IPPE Notes

PY1 Students are finishing up their Institutional I rotations this week concluding on May 25th.

PY2 Students are currently in the middle of their Community II rotation schedules which will conclude on June 8th.

Thank you for making these introductory experiences possible for our PY1 and PY2 students as they get some of their first looks at pharmacy practice.

A New Look For E*Value

Changes are in store for the database management site, E*Value, that we use for student rotations.

The improvements to the site will mainly be visual in nature and will not have much of an impact on the basic functionality that you have become familiar with.

The conversion will have no effect on the way you complete mid-point and final student evaluations and transcripts. Those will all remain the same and will still be emailed to you at the proper time for completion.

The target date for the conversion from the old format to the new one will be on June 11, which will fall in the middle of

the first APPE rotation of the year.

All this change of course means that any walkthroughs and guides we have produced, to help you better understand how to use the system, will become obsolete. As soon as the conversion occurs we will begin work on producing a new Preceptor's Guide to E*Value. This guide, like the one we currently use, will cover all of the functionality that is available from the preceptor's perspective.

We have included a screen shot that was provided to us as an example of what the new Home Screen will look like when you log in.
