PY4 Students (APPEs): Calendar Month Rotations

If you apply a 1.25 multiplier to your past total slots offered, that number will be the equivalent number of slots needed for calendar month rotations. For example: Preceptors who offered 4 availability slots in 2016-17 will need to offer 5 availability slots for 2017-18 to adjust for the change to calendar month rotations. 8 availability slots in 16-17 would be equal to 10 slots in calendar month format for 17-18.
