COMMUNITY-BASED RURAL HEALTH PRACTICE EXPERIENCE

♦ Overall Objective: Demonstrate how pharmacists can impact clinical, economic, and humanistic outcomes of rural residents of Mississippi through better utilization, understanding, and adherence to medications.

♦ Resident will be trained to provide CMM services, including disease-specific education throughout this underserved region.

PROGRAM GOALS & OUTCOMES

The School of Pharmacy seeks to provide residents with the knowledge and skills to become competent practitioners in both the community and academic settings. Graduates of this program will have the clinical competence and skills necessary to manage a community pharmacy practice; counsel, educate, and evaluate patients; teach students; and provide CMM services.

Graduates will also learn how to establish their own innovative pharmacy practice; practice in an ambulatory clinic care setting; perform as an academician and join the faculty at an accredited school of pharmacy; educate and evaluate patients; and provide drug information services.

APPLICANT INFORMATION

♦ Applicants must apply online through the Pharmacy Online Residency Centralized Application Service (PhORCAS)

♦ Applicants must register for and participate in the ASHP Resident Matching Program www.natmatch.com/ashpmr

♦ Jackson-based Community Pharmacy Residency Program Match code is 176115

♦ Oxford-based Community Pharmacy Residency Program Match code is 176121

This residency program agrees that no person at program sites will solicit, accept, or use any ranking-related information from any residency applicant.

PROGRAM PURPOSE

The University of Mississippi School of Pharmacy PGY-1 Community Pharmacy Residency Program seeks to build upon the doctor of pharmacy (PharmD) education and outcomes to develop community-based pharmacist practitioners with diverse patient care, leadership, and education skills who are eligible to pursue advanced training opportunities including postgraduate year two (PGY2) residencies and professional certifications.

PROGRAM DESCRIPTION

The University of Mississippi School of Pharmacy offers a comprehensive postgraduate experience for residency training with a PGY-1 Community Pharmacy Residency program. This program seeks to provide the resident with the knowledge and skills to become a competent practitioner in both the community and academic settings. Graduates of this program will have the clinical competence and skills necessary to manage a community pharmacy practice, counsel and evaluate patients, teach students, and provide pharmaceutical care services.

This multi-site program has 3 residency positions (2 in Jackson and 1 in Oxford) providing experiences at innovative practice sites. The Jackson residents are based at the University of Mississippi School of Pharmacy on the University of Mississippi Medical Center Campus, and the Oxford resident is based at Tyson Drug Company in Holly Springs, Mississippi. The program offers unique opportunities for precepting Doctor of Pharmacy students, providing education and individualized Comprehensive Medication Management (CMM) programs in community and clinical settings, and conducting research. In addition to core residency requirements, the resident is involved in the activities of the School of Pharmacy Community-Based Research Program (CBRP) seeking to improve care for patients in the underserved regions of Mississippi by implementing pharmacy CMM.

COLLABORATIVE CARE EXPERIENCES

Residents will have opportunities to work under Collaborative Practice Agreements with a variety of providers through the following experiences:

- **TeleInsulin**—Residents will manage patient with insulin-dependent diabetes at the University of Mississippi Medical Center (UMMC).
- **Family Medicine**—Residents will provide comprehensive care for a variety of disease states and patients of all ages at the UMMC Family Medicine Clinic.
- **Private Physician Clinics**—Residents will gain experience with clinical pharmacists who work with collaborative care teams providing CMM services to improve patient outcomes.

TEACHING AND LEARNING CURRICULUM

Residents are provided the experience needed (including didactic lectures, PBL group facilitation, academic committee service, and co-precepting students within clinical practice sites) to obtain an adjunct faculty preceptor position in a community setting or a non-tenure clinical track faculty position within a school of pharmacy. They will also complete a teaching certificate program.

COMMUNITY PHARMACY PRACTICE SITES

- Residents will learn the business model of a community pharmacy practice in Jackson area locations.
- Residents will provide MTM services, utilize medication adherence tools, and implement patient assistance programs.
- Residents will become familiar with the corporate organization, policies, procedures, and daily activities associated with the operations of multiple pharmacies.

LEADERSHIP AND MANAGEMENT

- Residents will become familiar with the day-to-day operations of an independent pharmacy.
