

UNIVERSITY OF MISSISSIPPI SCHOOL OF PHARMACY
ADVANCED PHARMACY PRACTICE EXPERIENCES

Student: _____ Date: ___/___/___ Rotation Type: **ADULT MEDICINE** Rotation #

Preceptor: _____ Preceptor Signature: _____

APPE Adult Medicine PRCT 586 Pneumonia Management

Directions: Identify one patient with pneumonia or similar bronchial condition. If for some reason such a patient cannot be identified at your site, role-play with another student, health professional, or your preceptor and complete the following:

How long has the patient had pneumonia? What are the different types of pneumonia and most commonly associated pathogens with each? (Question 1 of 5 - Mandatory)

What type of antibiotic therapy is the patient receiving for pneumonia? What are the antibiotic resistance patterns at your rotation site? (Question 2 of 5 - Mandatory)

Does the patient have adequate renal function for the current antibiotic dosing regimen? Indicate why or why not. (Question 3 of 5)

What therapeutic, adverse effect, labs, or other parameters are being monitored in the patient (if applicable)? Are there other concerns? (Question 4 of 5)

Are there any changes to the patient's medication regimen that should be made based on your assessment? If so, describe your recommendations below. (Question 5 of 5)

Review your answers in this evaluation. If you are satisfied with the evaluation, click the SUBMIT button below. Once submitted, evaluations are no longer available for you to make further changes.
