Preceptor: _____ Preceptor Signature: _____

APPE Community PRCT 553 Warfarin Management

Directions: Identify one patient currently on warfarin therapy. Answer the questions below.

Review the patient's drug profile. How long has the patient been taking warfarin? (Question 1 of 4 - Mandatory)

List at least 4 prescription medications that have major interactions with warfarin therapy. Identify whether or not the patient is currently taking any prescription medications that could interfere with therapy. Remember to ask the patient if he or she gets medications filled at any other pharmacy. (Question 2 of 4 - Mandatory)

What types of non-prescription medications can interact with warfarin? Confirm that the patient is not currently taking any OTC medications that could alter therapy and report your findings below. (Question 3 of 4 - Mandatory)

Ask the patient when his or her next follow up visit is for monitoring (PT/INR) and ask if the patient has noticed any unusual bruising or bleeding. Remind patient of adverse effects and importance of frequent monitoring. Follow up with prescriber if needed. Report your findings below. (Question 4 of 4 - Mandatory)

Review your answers in this evaluation. If you are satisfied with the evaluation, click the SUBMIT button below. Once submitted, evaluations are no longer available for you to make further changes.
