**APPE Institutional PRCT 554 Order Management and Appropriate Storage Exercise**

Answer the following questions related to order management and appropriate storage at your rotation site.

Is there a specific individual responsible for ordering and inventory management at the hospital site? If so, what are his/her duties? (Question 1 of 6 - Mandatory)

How does your institution differentiate between storage of chemotherapy agents, hazardous drugs, and teratogenic drugs? (Question 2 of 6 - Mandatory)

How does your institution handle drug shortages? List one drug that is currently shorted and identify why the shortage is occurring. Describe below. (Question 3 of 6 - Mandatory)

Is the inventory managed manually or by an intuitive computer system? (Question 4 of 6 - Mandatory)  
Manually      Computerized System

What system is used to monitor the temperature in the medication refrigerators? (Question 5 of 6 - Mandatory)

List three medications other than insulin that are stored in the refrigerator at the institution. Are temperature excursions permitted for these medications? Explain below. (Question 6 of 6 - Mandatory)
