**APPE Institutional PRCT 554 Pharmacokinetics**

Directions: Answer the following questions related to pharmacokinetics at your rotation site.

Who answers the pharmacokinetic consults at your institution (certain pharmacists or are all pharmacists responsible for their own patients)? (Question 1 of 10 - Mandatory)

How are pharmacokinetic consults handled after hours? (Question 2 of 10 - Mandatory)

How are pharmacokinetic calculations and dosages determined? (Computer system, website, manually by hand, etc) (Question 3 of 10 - Mandatory)

What drug is the most frequently consulted? (Question 4 of 10 - Mandatory)

Identify one patient on a drug that requires pharmacokinetic dosing. Calculate an appropriate dose using your site's method or verify that a current dose is adequate. Record your calculations below. Provide recommendations if able. (Question 5 of 10 - Mandatory)

Drug selected:

Indication for medication: (Question 6 of 10 - Mandatory)

Patient factors considered in dosing calculations: (Question 7 of 10 - Mandatory)

Calculated dose: (Question 8 of 10 - Mandatory)

Calculated dosing interval: (Question 9 of 10 - Mandatory)

Were your recommendations accepted? Why or why not? (Question 10 of 10)
