Evaluations Go Online

The time has finally come for us to fully transition over to the E*Value system. A key element of that transition will be the elimination of paper evaluations, as those same evaluations have been moved online.

Toward the middle and end of a student's rotation you will now receive an automated email from E*Value that will contain a link to the mid-point and final evaluations for the student. Once you have submitted the evaluation there will be no need to send us a paper evaluation.

The final evaluations have also been updated for this

academic year and you can find the printable versions of these on the PEP Manual CD you were either mailed or received at Preceptor Conference and also on the Preceptor Zone website.

If questions arise when you receive the automated emails directing you to complete the evaluation in E*Value, please feel free to contact us and we will be happy to answer any questions or help you with E*Value.

Something New To Know About

Going along with the new things we are doing with E*Value, we have also introduced new rotation activities and transcripts for students to complete while on rotation. The activities and transcripts are requirements that students **must** complete while on rotation.

Students will get all of the activities and transcripts automatically sent to their E*Value accounts prior to their rotation, but if you would like to take a chance to review the activities please visit our website, listed at the

bottom of this page, and find the link "APPE Core Activities." The coursework is arranged to correspond with the different types of rotations that are offered. The transcripts can be found by accessing the "Assessment Forms" link on the website.

At the conclusion of the rotation you will be sent two emails, one for transcripts and one for the final evaluation. You can add comments to the transcripts or just indicate that you have reviewed the work.
