APPE Notes

October 2 - PY4 Seminar Day

As part of the Seminar Skills course, PY4 students are required to make a major presentation on the Jackson campus before departmental faculty and other students. Preceptors may excuse the students for either part or all of the seminar day. Attendance will be closely monitored. If the student is to only report for part of the seminar day, on the day of the seminar, the student is expected to report to his or her rotation site as usual. The student should be excused long enough to travel to the University of Mississippi Medical Center (UMMC) campus. The student should plan to arrive about 30 minutes before the presentation is scheduled. After the student has given his or her presentation, the student is expected to return to his or her rotation site. The only exception in which students would not be required to report to rotation before or return to rotation after presenting are those cases in which students are participating in a rotation at a site located more than four hours from the UMMC campus.

IPPE Notes

PY3 Students are currently in the middle of their Block 1 rotations, which will conclude September 27th. Block 2 rotation schedules are being worked on currently and will be sent out soon. The preferred weeks for Block 2 Rotations are:
